MEDIA RELEASE

Residents Explore Kenyan Culture Through Armchair Travel

This month, the Infinite Care community has embarked on an enriching journey to Kenya, all without leaving the comfort of their home. The Armchair Travel initiative is part of Infinite Care's ongoing commitment to cultural diversity within their communities.

The Infinite Care Armchair Travel program, complete with an Infinite Care 'Travel Passport' means residents can receive a new passport stamp each time a new monthly destination is reached. The program is designed to transport residents to various corners of the globe through immersive cultural experiences including traditions, cuisine, and crafts.

This month, Kenya was the chosen destination due to African World Heritage Day on 5 May. Residents enjoyed making Kenyan collar necklaces and tasting a selection of traditional Kenyan dishes like nyama choma, ugali, matroka and chapati. The experience provided a wonderful opportunity to connect through creativity and learning, and with numerous Kenyan team members at Infinite Care Cleveland, their community wholeheartedly embraced the colour and festivities.

"The joy on the faces of our residents and team members as they come together to learn about different cultures is truly heartwarming," said Luke Greive, Infinite Chief Executive Officer. *"Our strategy to enhance cultural diversity in our homes is not just about education; it's about fostering a sense of connection and broadening horizons for both our residents and team."*

The Infinite Care Armchair Travel schedule is thoughtfully planned to ensure each month brings a fresh and exciting new destination to explore. Upcoming destinations include Sweden with Midsummer celebrations, Australia for NAIDOC Week, Spain for La Tomatina and the colourful traditions of Mexico for Mexican Independence Day. Each cultural exploration is supported by themed meals prepared by the kitchen team and crafts organised by the Resident Engagement and Wellbeing Team, ensuring an immersive and engaging experience for residents and team members.

Says Greive, *"By bringing the world to our residents, we are enriching their lives and creating lasting memories."*
